Cork Inside seal guarantees that this product contains, in its cork formulation, a 100% natural and recyclable material with unique technical properties.

Cork Inside formulations combine cork with other materials and are developed and rigorously tested by Amorim Cork Composites’ innovation and engineering teams. Cork Inside responds to stringent requirements and guarantees the performance required for its application.

The Cork Inside seal guarantees that this product contains, in its cork formulation, a 100% natural and recyclable material with unique technical properties.

With very good vibration absorbing abilities, cork and rubber can be used in a multipurpose space such as a garage or absorb noise from neighbours when a washing machine is being used.

It is also possible to install a personal gym at home with these products applied in the floor. Easy to clean and easy to apply, it’s a solution that can be part of anyone’s life.

### Cork-rubber solutions

**COMMON USES**
- Recycled and sustainable accessories for flooring systems
- Underneath treadmills
- Garages

**FEATURES**
- Easy and fast to install
- Very quick vibration absorbing abilities
- Produced with recycled rubber and recycled EVA and cork

**TECHNICAL INFORMATION**

**LARGE SIZE RUBBER PAD**

- **Dimension**: 1500x700 mm
- **Thickness**: ≥ 10 mm
MULTI PURPOSE PADS
PACK OF 4 RUBBER PADS

MACHINE PAD
FOR UNDERNEATH YOUR MACHINES

FEATURES
- Easy and fast to install
- Very quick vibration absorbing abilities
- Produced with recycled rubber and recycled EVA and cork

COMMON USES
- Underneath washing machines
- Air conditioning units
- Chillers
- Electricity generators
- Workbench machine tools
